Rules of thumb...

- Microsoft never calls up and says “we have noticed problem with you PC.. I can fix this for you..
- Avoid hyperlinks in emails without first seeing the url in the link.
- If your computer starts talking to you, and says you have a virus, and you need to call a 1-800 number to fix it. Don't.
- When searching for downloads, check the url, and find the correct download link
